Dikshant Patodia

Senior Frontend Engineer

8638348150 | dikshantpatodia@gmail.com | linkedin.com/in/dikshantpatodia | github.com/dikshantpatodia

EXECUTIVE SUMMARY

Senior Frontend Engineer with **8+ years of experience** architecting high-performance, enterprise-grade web applications using **React, Next.js (App Router), JavaScript (ES6+), TypeScript, GraphQL, and Micro Frontends**. Proven track record of scaling design systems, optimizing Core Web Vitals, driving frontend architecture, and building automated testing suites. Delivered mission-critical frontend solutions for global market leaders including **Meta, Microsoft, Fidelity Investments, BigBasket, Reliance Digital, Ninety One, and Legrand.**

TECHNICAL EXPERTISE

- **Core & Frameworks:** React.js (v18/19), Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass
- **State & Data Fetching:** Redux Toolkit, React Query, Context API, GraphQL, REST APIs
- **Architecture & Tooling:** Micro Frontends, Monorepos, Design Systems, Atomic Design, Vite, Webpack
- **UI & Styling:** Tailwind CSS, Material UI (MUI), Styled Components, Storybook, Responsive Design
- **Testing & Quality:** Jest, React Testing Library, Core Web Vitals (LCP, INP, CLS), WCAG 2.1 Accessibility
- **DevOps & Tools:** AWS S3, Firebase, CI/CD Pipelines, Git, GitHub Actions, JWT
- **AI Tools:** Claude, Github Copilot, ChatGPT

WORK EXPERIENCE

Tech Mahindra - Senior Software Engineer

Jun 2024 - Present

- Architected and deployed **4 production-grade Micro Frontend applications** using Module Federation and Webpack, establishing shared component architecture and reducing cross-team code duplication.
- Delivered scalable frontend solutions for enterprise clients including **Meta and Microsoft**, satisfying strict security, performance, and accessibility standards.
- Boosted **Core Web Vitals (LCP & INP) by 33.2%** through dynamic route-based code splitting, asset optimization, and Next.js SSR strategies.
- Authored **150+ automated unit and integration tests** using Jest and React Testing Library, significantly improving regression coverage and release velocity.
- Led a team of 3 frontend engineers, managing technical discussions, daily code reviews, sprint planning, and architectural guidance.

Independent Frontend Consultant & Contractor

Jan 2024 - May 2024

- Delivered client-side features for **2+ B2B startups**, focusing on performance audits, state management, and Core Web Vitals.
- Built analytics dashboards using **React 18, TypeScript, and Tailwind CSS**, optimizing async execution and rendering.
- Audited **3 small scale codebases**, reducing dependency bloat and improving code structure for maintainability.
- Took multiple interviews for 2 companies for Frontend Engineer roles.

Publicis Sapient - Senior Software Engineer

Feb 2022 - Jan 2024

Client: Fidelity Investments

- Designed and implemented an **Atomic Design system component library** using Tailwind CSS, Storybook, and TypeScript, improving frontend performance by **30%** and standardizing UI patterns.
- Elevated test coverage from **78% to 93%** using Jest and React Testing Library, eliminating high-priority production bugs and establishing automated quality gates.
- Contributed to enterprise frontend architecture decisions, introducing standardized asynchronous state management and reusable data-fetching hooks.

Client: Ninety One

- Led internationalization (**i18n**) and localization architecture, refactoring core UI components to support seamless multilingual experiences across global markets.
- Mentored 2 frontend developers through technical pairing, structured code reviews, and hands-on implementation guidance.

Talent500 - Software Developer

Sep 2019 - Feb 2022

- Engineered the core frontend foundation for a B2B SaaS Applicant Tracking System (ATS) from scratch using **React, Redux Toolkit, and RESTful APIs**.
- Developed an integrated online assessment platform within the ATS ecosystem, featuring real-time state synchronization and dynamic assessment forms.
- Designed and published internal component libraries as **npm packages**, streamlining component distribution across 5 separate product modules.
- Led an engineering squad of 6 developers across 5 concurrent projects, coordinating technical delivery, API contract definitions, and timeline alignment.

GMetri Inc. - Frontend Engineer

Feb 2018 - Aug 2019

- Engineered a reusable UI component library of **60+ components** for a Web-based VR editor, reducing feature development time by **~40%**.
- Built interactive dashboard interfaces and an **AWS S3 asset management uploader** using React, JavaScript and Redux.
- Delivered custom AR/VR web solutions for enterprise clients including **BigBasket, Reliance Digital, Reliance Jewels, and Legrand AR**, driving a **43% increase** in end-user engagement.
- Redesigned and maintained the official company website across two major versions, enhancing SEO rankings, responsiveness, and web accessibility.

EDUCATION & LEADERSHIP

Assam Don Bosco University - B.Tech in Computer Science and Engineering

2012 – 2016

- **Academic Record:** CGPA 7.19 / 10
- **Leadership:** Advisor (Final Year), President, Secretary, and Executive Member of the University Coding Club.
